MD. NADIM HIDER

Senior Business Intelligence Analyst | Ambient AI & Global Healthcare Operations Data

Dhaka, Bangladesh | +8801685226621 | nadim.hider@outlook.com | Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Results-driven Business Intelligence, Data, and Operations Analyst with 5+ years of experience engineering data architectures, real-time operational telemetry, and workflow automations supporting enterprise healthcare delivery. Currently driving data intelligence for Ambient AI operations at Commure (U.S.), collaborating daily with cross-border, cross-cultural teams across the U.S., Bangladesh, and India to enhance operational visibility, streamline global delivery workflows, and derive actionable insights from operational data. Proven track record managing internal service continuity data for 900+ personnel serving premier U.S. healthcare enterprise customers (HCA Healthcare, CommonSpirit, Dignity Health, Adventist, UCSF), reducing operational lag by 35% and maintaining service disruption rates below 2% under strict HIPAA and SLA governance.

TECHNICAL & OPERATIONAL ARSENAL

Data Analysis & BI:	Advanced SQL, Python, Business Intelligence (BI) Dashboards, Enterprise Data Migration, Multi-Site ETL, Time Series & Predictive Analytics
Agentic AI & Workflows:	Agentic Developer Workflows (Cursor, Antigravity, Claude Code), Custom AI Agent Systems, Ambient AI Telemetry, LLM Evaluation Rubrics, Prompt Engineering
Tech Stack & Internal Tools:	JavaScript (ES6+), Python, Node.js, HTML5, CSS3, Retool Applications, Google Apps Script, Google Tech Stack, Git, GitHub
Operations & SLA Governance:	Cross-Border Delivery (U.S., Bangladesh, India), BPMN 2.0 Process Modeling, Scribe Allocation Algorithms, SLA Adherence (<2%), HIPAA

PROFESSIONAL EXPERIENCE

COMMURE (U.S. Enterprise Healthcare AI Platform) — **Dhaka, Bangladesh**

Senior Business Intelligence Analyst — **Aug 2026 - Present**

- **Ambient AI Operations Data:** Lead data intelligence for ambient clinical documentation projects, modeling operational telemetry to provide U.S. leadership and regional operations clear visibility into scribe throughput, model adoption, and delivery efficiency.
- **Global Cross-Border Collaboration:** Partner daily with cross-functional, cross-cultural teams across the U.S., Bangladesh, and India, aligning technical specifications, unifying operational reporting, and eliminating operational silos across time zones.
- **Enterprise Data Migration:** Spearhead post-merger data consolidation following the Augmedix-Commure integration, auditing, cleaning, and normalizing legacy schemas across enterprise operational datasets to ensure zero service disruption.
- **Automated Internal Tooling:** Engineer custom Retool and Apps Script applications integrated with SQL/Python pipelines, replacing manual spreadsheet trackers and accelerating operational decision cycles.

Senior Training Specialist — **Aug 2025 - Jul 2026**

- **Service Continuity Architecture:** Managed operational data and continuity reporting for 900+ personnel serving enterprise U.S. hospital customers, enhancing leadership visibility into real-time KPI health and service performance.
- **Contractual SLA Adherence:** Governed resource allocation across customer accounts, holding service disruption rates below 2% against strict contractual uptime requirements.
- **Process Automation:** Designed end-to-end automated workflows and internal tooling, cutting operational lag by 35% and eliminating recurring manual data-entry errors.
- **BPMN Workflow Redesign:** Re-architected operational procedures using BPMN modeling principles, elevating cross-team execution throughput and data precision by over 20%.

AUGMEDIX — **Dhaka, Bangladesh**

Training Specialist : Coverage & Resource Management — **May 2024 - Jul 2025**

- **Dynamic Resource Optimization:** Managed real-time shift coverage and algorithmic scribe-to-shift matching based on clinical specialty requirements, provider schedules, and account constraints.
- **Enterprise Account Operational POC:** Served as primary site-level operational POC for teams supporting major U.S. healthcare customers (HCA Healthcare, CommonSpirit, Dignity Health, Adventist Health, Northern Light).

Training Specialist : Allocation & Growth — **Oct 2023 - May 2024**

- **Customer Onboarding & Success:** Led operational onboarding and custom workflow setups for newly signed enterprise healthcare customers, ensuring seamless ramp-up to production.
- **Compliance & Quality Audits:** Conducted 1-on-1 coaching, quality audits, and HIPAA compliance governance, directly improving customer satisfaction and service delivery metrics.

NB Project Associate & Medical Documentation Specialist — **Mar 2021 - Oct 2023**

- Gathered product adoption telemetry and frontline feedback for next-gen clinical documentation tools; supported physicians with live EHR navigation across top U.S. hospital customers adhering strictly to HIPAA.

FLAGSHIP SYSTEMS & OPERATIONAL PROJECTS

Ambient AI Operations Telemetry & Tracking Control Plane (Commure) — `Python : SQL : BI Dashboards : Operational Telemetry`

- Built an operational data tracking pipeline monitoring ambient AI clinical documentation workflows, translating complex operational telemetry into clear executive KPI views connecting U.S. leadership with Bangladesh and India operations.

Enterprise Data Migration & Global Operational BI Suite (Commure) — `SQL : Python : Retool : Schema Normalization : Multi-Site ETL`

- Consolidated legacy operational databases into unified schemas post-merger; established automated cross-border syncs and KPI reporting pipelines connecting U.S. headquarters with partner sites in Bangladesh and India with zero data loss.

Coverage Allocation & Scribe Matching Control Plane (Augmedix / Commure) — `Retool : Google Apps Script : JavaScript : BPMN Modeling`

- Engineered an automated matching engine allocating hundreds of scribes to customer hospital shifts based on specialty, credentialing, and schedules, cutting operational lag by 35% and keeping disruptions under 2%.

EDUCATION & PROFESSIONAL CREDENTIALS

East West University	Master of Science (M.S.) in Data Science and Analytics	**Passing Year: 2025**
IBA, University of Dhaka	ACMP 4.0 : Business Strategy & People Management	**Issued Oct 2025**
National University of Bangladesh	Bachelor of Science (B.Sc.) in Zoology	**Graduated 2019**
